

HIGH QUALITY PRODUCTION

Product character:

Printhead quantity : KM512i - 4/8 pcs, KM1024i - 4/8pcs	Nozzle quantity : 512pcs nozzle, 1024 nozzle/head.
Color : Cyan, Magenta, Yellow, Black	Resolution : 480, 540, 720dpi (30PL)
Printing width : Up to 3.2m	Output Speed : 110m ² /h - 220m ² /h(512i), 220m ² /h - 500m ² /h(1024i)
Printer dimensions : 4775X864X1525mm	Weight : 850KGS

Separate the machine power and heating power

Separate the machine power and heating power to avoid huge current or electromagnetic wave disturbance
Uses Schneider switch

Auto printhead dipping system

After the day's printing, to protect printhead it is parked on right side & dipped in solution.

LED for printing bed

Printing bed illuminated with LED, easy to check its test and printing quality

Infrared heating system

Adjustable heating width by 3 separately section
Adjustable heating temperature of media surface from 35-80. Adjustable dry fan wind-force
External infrared system, to replace the platform heating system.
Print results can get stronger colors and adhesion to the media by infrared heating, and achieve a more durable weather resistance.

Head plate height can be adjusted freely

Controlling its head plate height by a knob, which can control the height between heads and printing flat bed automatically.

4 colors ink purging separately

Individual ink purging, it is good for cleaning printheads, saving ink.

* All specifications are subject to change without notice.
